Viewgo modular monitor arm - desk 233

A 1x3 monitor mount suited for flexible workspaces and potential future changes. The four-slot aluminum pole enables tool-free height adjustment for each screen. Displays can be arranged in portrait or landscape to create a broad, balanced setup that stays clear and organized. Its modular design allows the configuration to be updated over time. Components can be added or replaced as your workflow develops.

- Static height adjustment of 345 mm
- Supports monitors up to 9 kg and 32" per monitor
- Independent height adjustment per monitor
- Main components made of aluminium and steel
- 450 mm extrusion profile with four vertical mounting slots
