Viewgo modular monitor arm - desk 240

A 2x2 quad monitor mount suited for flexible workspaces and future changes. The four-slot aluminum pole allows easy, tool-free height adjustment for each screen. Monitors can be set in portrait or landscape and combined in different sizes while keeping the setup neat and balanced. The modular design makes it possible to adapt the configuration over time. Components can be added or replaced when your way of working changes.

- Static height adjustment of 645 mm
- Wings support monitors up to 9 kg and 32"
- Independent height adjustment per monitor
- Main components made of aluminium and steel
- 750 mm extrusion profile with four vertical mounting slots
- Full monitor flexibility: tilt +25°/-25°, swivel +90°/-90°, rotate +90°/-90°
- Standard VESA quick release for fast and secure mounting
- Compatible with tablet holder and laptop holder
- Fitted with cable clips to guide cables tidily (up to 12 cables)
- ISO 9241-5 compliant: Designed in accordance with ergonomic requirements for visual display workstations
- Compatible with VESA MIS-D 75 x 75 / 100 x 100 mm
- Hybrid top access clamp for easy and secure installation
- Includes a desk clamp and bolt-through mounting kit
- Suitable for desktop thicknesses from 5 to 40 mm (clamp) or 50 mm (bolt-through)
- Maximum monitor size: height 530 mm, width 770 mm
